The Media Guy presentation comments from students at Lamar, MO High School:

"I learned that one mistake can ruin your life. It can affect not only you but your family and friends."

"I learned you never know what you have til it's gone. I also realized that you never take your eyes off the road. Never text while driving, when you text it takes your mind off the road and you will forget what you are doing."

"Today's assembly I thought really got everyone's attention. It was neat because of the movies they played in the presentation and the singers in the presentation. This presentation rally opened people's eyes up I'm sure!"

"The video really opened my eye about some of the things I do that can harm others."

"You shouldn't tell people what to do, you can tell them what may happen because of it but don't force someone not to do something cause it's bad. It is their choice not yours."

"I really feel that this assembly affected the students here in a way that will really make them think twice before acting."
