Dear Fred,

Thank you for another wonderful show. Our students thoroughly enjoyed all of the great, new, current movie clips and the newest music and music artists in the show. The message about standing together to make a difference in their community and the world was such an inspiring, relevant message. Several teachers commented to me after the show about how much they enjoy it every year and what a great message it has for our students.

I would also like to thank you for being so prompt and efficient in setting up and taking down the equipment for the show. I know I can always count on your for a top notch, professional job.

We can't wait for next year's show. Thank you for being so accommodating to our testing schedule next year.

Sincerely,

Dani O'Quinn

Moss Bluff Elementary Counselor
